2019-2020 CPR Guidelines American Red Cross (Review)

The steps for CPR have not changed since 1954 when it was first introduced by Dr. Peter Safar. The order of the different steps for performing CPR has always been A-B-C, which represents the order airway, breathing, and compressions. This was the accepted best practice up until 2010 when the American Heart Association made revisions to the order of the steps.

The Revised American Heart Association CPR Guidelines

About Guidelines & Statements. The American Heart Association and American Stroke Association publish medical guidelines and scientific statements on various cardiovascular disease and stroke topics. AHA/ASA volunteer scientists and healthcare professionals write the statements.

Guidelines & Statements - American Heart Association

Highlights of the 2015 AHA Guidelines Update for CPR and ECC 1 Introduction This "Guidelines Highlights" publication summarizes the key issues and changes in the 2015 American Heart Association (AHA) Guidelines Update for Cardiopulmonary Resuscitation (CPR) and Emergency Cardiovascular Care (ECC).

HIGHLIGHTS - American Heart Association

There was a significant improvement in survival after inhospital CPR from 24.1% in 2007 to 31.1% in 2014 (Ptrend<0.001). However, we did not find any statistically significant improvement in inhospital survival after CPR, in the study period after 2010 AHA CPR guidelines in comparison to study period before the guidelines.

Nationwide survival after inhospital cardiac arrest before ...
