Induma | Ozark Tool Manuals & Books
This is my milling machine - an Induma. I was told it is an Indian Bridgeport knockoff. I have had it for a while but never found where I could get parts for it if needed. So far I have not had any issues. I use it for hobby (train) related stuff and house repairs.

Induma - groups.io
I'd postulate that an Induma is a better made and slightly beefier mill than a B'port as well. I know I'd prefer an Induma to a B'port but I enjoy being different. Anyway, I found a Induma 1/S Operator and parts manual pdf for you if you're interested.

Online Auction Induma 1S Vertical Milling Machine
Which Induma did you get? Induma mills are very interesting machines. The offset Y axis screw is pretty unique to the Induma's I believe. I haven't run one but they appear to be stout and well made machines. The only durability issues I've ever heard about them concern their electrical systems. Have you got a manual for the mill?

[Mill] - Induma Mill | The Hobby-Machinist
Induma mills are well made. Parts are made of Unobtainium. Treat it properly and dont break it. Ill see if I can find some docs. but they are rare.
