Cancer survivorship refers to the entire process of living with, through, and beyond cancer. A person is considered a cancer survivor from the time of diagnosis until death. (An acute cancer survivor is a person who is disease-free after completing cancer treatment.) Unfortunately, many patients enter

survivorship with insufficient direction as to what to do.

Cancer survivorship - American Nurse

BACKGROUND. A cancer survivor is defined as a person living with or beyond cancer There are over 2 million people living in the UK who have been diagnosed with cancer, the majority (1.24 million) were diagnosed more than 5 years ago. 1 As a result of earlier diagnosis and improved treatments, survival rates are increasing and more than 50% of patients will now survive for at least 5 years.
