Embrace Possibility. Mercury FourStroke outboard motors are incredibly powerful and efficient, and they feature a wide range of applications. Crafted for less weight and high displacement, they generate abundant torque and immediate power. And because they don't have to work as hard as heavier engines or those with lower displacement, they make boats plane faster and accelerate better, and ...

2008 115 HP Mercury EFI 4-stroke fuel problem. Engine recently just started running extremely poorly. At one moment cruising along at 4500 to 5000 rpms the next moment hard to keep from dying then back to running just great. Could a low and/or high pressure fuel filter, fuel module, fuel injectors or ? be the problem.
