The Internet of Buildings is set to make the world a smaller place - and building management could soon be outsourced much as IT service is today. Indeed, major real estate management companies have started offering ROCs (Remote Operations Centre) for managing the world's buildings through a hub of specialized remote centers.

A roadmap to the 'Internet of Buildings' | GreenBiz

They have cable internet that is supposed to be 12 Mbps. If you are right beside the router you get close to 12, but if you go more than about 10 feet away from the router your speeds start dropping considerably. 25 feet from the router you get about 1 Mbps.
