Hydraulic breakers include parts that are subject to wear during operation. Wear depends on a lot of variables, such as the application of the breaker, the material that is being broken up, and the set-up of the carrier. A worn part not only affects the performance of your breaker, but can also trigger major breakdowns.

Service kits for hydraulic breakers | Epiroc US

Bobcat® breakers produce low recoil and minimal hydraulic pressure spike to their carriers. Breakers can be mounted on your excavator with various systems: directly to the arm pin, with the hydraulic quick coupler or with either of the two mechanical couplers - Klac and Lehnhoff systems
