Is your fuel economy worse than normal? If your fuel economy is very poor (5-7 mpg city with my experience) you might have a bad coolant temperature sensor. So how does the coolant temperature sensor affect fuel economy? I asked this question to one of our members who has been of great help to me, Jason Young. As he explains: "Colder engines require richer fuel/air mixtures.

The result seemed to be a number of these engines that broke timing belts before replacement was due. The cylinder heads were oddly like a knockoff of the Volkswagen 2.0 16 valve heads, and flowed well. The 4.2 V8 had some headgasket failures over time, failing at the oil return passageways, and sometimes leaking large amounts of oil.
